

**PROCEDURE FOR REINSTATEMENT OF PROFESSIONAL ENGINEER
AND/OR LAND SURVEYOR LICENSE FOR LICENSES THAT HAVE
LAPSED 1/31/10 through 1/31/14**

In order to process the reinstatement of your license, a notarized letter attesting to your experience from the time you originally applied for licensure shall accompany your renewal along with the reason why your license lapsed. A notarized employment resume may be used to meet this requirement.

You must also submit a notarized statement that you have not signed or sealed any engineering or land surveying documents since the date your license lapsed. If you have been doing engineering or land surveying work, subject to Connecticut licensing requirements, state the name and license number of the licensed engineer or land surveyor under whose supervision you prepared the work.

If you have signed or sealed engineering or land surveying documents during the lapsed period, the notarized statement should provide sufficient facts for the Board to evaluate the circumstances. Applicants under these circumstances may be required to appear for a personal interview with the Board of Examiners or its Administrator.

**Reinstatement Fee Schedule :-(*Will make license valid to January 31, 2015.
(Please note that license renewal fees were increased as of October 1st 2009)**

Lapsed 1/31/14 (\$285.00 + \$28.50 late fee = \$313.50

Lapsed 1/31/13 (\$285.00 x 2 years + \$57.00 late fees =\$627.00
